One of the most enthusiastic and energetic workers for the cause of democracy in the coming presidential campaign will be Mrs. Mary V. Rose, of 7181 Dixie avenue, a gold star mother of the world war, and an active member of the United Daughters of the Confederacy in this city. Mrs. Mrs. Rose was one of the first Atlantans to visit the offices of John R. Slater, state democratic chairman, and to offer her services in the political fight this fall.

Mrs. Rose was emphatic in predicting the victory of the Smith forces, and was strong in her praise of the personal integrity of the two nominees. She is a relative of Senator Robinson, the vice presidential candidate, and has just returned from

TWO ARE KILLED NEAR CINCINNATI

Cincinnati, August 8.—(P)—Wendell Pavey, prominent Cincinnati automobile dealer, and J. L. Bovis, Cincinnati proprietor of an automobile establishment in Hamilton, Ohio, crashed to their death in an airplane near Lunken airport here today.

The automobile dealers were on their way to attend a golf match at Akron, Ohio.

They became lost in a heavy for just after taking off from Lunken airport at 8 a. m., against the advice of airport officials, who warned them that flying in the heavy fog in a plane not equipped with instruments for "blind flying" was impossible.

Going on record as indorsing the principle of old age pensions for persons in industry, the Atlanta Federasons in industry, the Atlanta Federation of Trades, at its semi-monthly meeting Wednesday night at the Labor Temple instructed its legislative committee to work for the introduction and enactment, at the next session of the Georgia general assembly, of a measure establishing old age pensions in this state.

Cerved last June in an attack on him in parliament.

Raditch died of wounds received last June 20 in parliament when a radical deputy, Punica Ratchitch, infuriated at frequent interruptions, whipped out his pistol and fired six shots into a group of Croatians. Each shot claimed a victim, two being killed, one of them a newhew of Raditch, and four were wounded.

The action was taken by adoption of a resolution presented by the executive board of the central body, which has been studying the old age pension question for some time. The legislative committee also was instructed to cooperate with other agencies that are endeavoring to secure establishment of old age pensions in Georgia, and to furnish state offi-cials and legislators with information concerning the need for such legisla-

tion.

Reports made by J. Sid Tiller, president of the federation and chairman of the Labor day committee, indicated that the parade of organized labor units, which will be one of the prize features of the holiday observance, is expected to prove the largest and most representative in the history of Atlanta. Plans and arrangements for Labor day celebration are practically complete and will be announced within the next few days. in the next few days.

After the first uncertain hours of

It's a grand feeling.

I got to this point today and I found it worth the previous flying to hours of uncertainty and confusion, when there was only a shrieking and clatter in my ears and no clear thoughts in my head as I held on to be the control stick while we roared about over the Jersey meadows.

Then the instruction pilot continually corrected with his set of the dou-

ble controls the too fimid or too jerky movements I made. When I was going through that, the earth seemed to swing about under me in a dizzy way which had no relation to the plane I was flying.

Today I began to "get the feel" of

Today I began to "get the feel" of the controls and turned the plane about in simple maneuvers—at a safe altitude, so the instructor would have time to correct any mistake I made before we hit the ground.

Things are getting more comfortable up there for both me and the instructor.

Like Babe's First Steps. Like Babe's First Steps.

It was only a little start, like a baby's first steps, as far as getting to be a pilot is concerned. But it was certainly an improvement over the previous attempts and I came down with the conviction that I can learn to firm.

to fly.
In a way it's like learning to write on a typewriter or getting the signals on a football team. It comes awk-wardly enough at first and you have to do a lot of slow, heavy thinking. But after you get enough practice, the words you think before a typewriter seems to run through your finter seems to run through your fingers and on to the sheet without any effort on your part. Or, if it is football, the strange groups of numbers which you formerly had to think about hard have a clear meaning to you the instant they are uttered.

The parallel is pretty close in learning to fly, except that flying is complicated by the fact that mistakes in the air may have much more serious

Plane Seems Steady.

In your first instruction in a plane, you hardly feel that you are sliding over this way or that, or that the machine is nosing over into what would be a fatal dive if it were not corrected. The plane seems to be steady all the time. It appears that only the earth is swinging about. You have to gather from the way the horizon behaves just what the plane is zon behaves just what the plane is doing. After you figure that out, you have to think which way you must move the stick and rudder bars to correct it. But, as you get a little practice, all this thinking becomes automatic, you begin to do what is needed smoothly and quickly. The plane feels really alive under your touch. You have time to look out past the shining silver wings and

Tomorrow I am going to try my first "stunt" flying. I will climb the plane so steeply that it loses flying speed and begins to fall. Then I must try to recover from the fall and fly straight again before we hit the ground

ty, including the solicitor general of the Ogeechee circuit, the sheriff, Mayor T. E. Hightower, of Dublin, and Frank Lawson, editor of the Dublin Courier-Herald, appeared before the Georgia prison commission Wednesday pleading for executive clemency for Bernard Rawls, now serving life imprisonment for the slaying of J. B. Poindexter, Tybee Beach hotel manager in May, 1924.

Each of the men declared a belief that the young man has "paid his debt to society" for an "act committed to avenge an insult any red-blooded southern man would resent."

Rawls, testimony at the trial in Chatham county showed, slew Poindexter during a scuffle which ensued when the latter attempted to eject the Laurens county youth from the hotel. Testimony given by Poindexter's widow, largely accredited with securing the conviction, attorneys said, was impeached as "physically impossible" by Judge R. Earl Camp, chief of defendant counsel.

Judge Camp added the claim that his client was tried in a hostile atmosphere and the prosecution pushed by financial interests who were said to have suffered when the tragedy marred the opening of the resort hotel. He praised the lineage of Rawls and referred to the family as one of the finest in middle Georgia.

Editor Lawson, adding his belief in the integrity of the imprisoned man declared that "if your honors see fit to give him clemency I would be glad to have him work for me on my newspaper; that's how much I believe in his character."

Richmond, Va., August 8.—(P)— With complete returns in the Second Virginia district, the only district in which the contest was close in the democratic primary of yesterday, Con-gressman Joseph T. Deal was renomi-nated by a majority of 1,279 votes over his opponent, state Senator John A. Lesner.

cover his opponent, state Senator John A. Lesner.

In the third district the incumbent Congressman Andrew Jackson Montague registered a decisive victory over his opponent, D. C. O'Flaherty. The entire vote of this district is not yet complete as some isolated sections have not reported, but the large majority of precincts gave Congressman Montague handsome leads. It is estimated that when all returns are in he will have led Mr. O'Flaherty by at least 5,000 votes.

Congressman R. Walton Moore in the eighth likewise scored a decisive victory, returns showing that he defeated his opponent, H. Earlton Hanes, by more than three to one.

Tunney Is Catholic.

Miss Lauder is an Episcopalian and Tunney is a Catholic. Persons close to the Lauder family said tonight that before the engagement was announced all complications which might arise from this difference in faith had been fully taken care of. When a Catholic, either man or woman, wishes to marry a non-Catholic a special dispensation must be obtained from the Catholic church. This is usually forthcoming without any difficulty, but as a rule only on the agreement of both that any children there may be will be brought up in the Catholic faith.

# PRISON COMMISSION INVESTIGATES KILLING

Macon, Ga., August 8.-(A)-Two inspectors of the state prison commission were here today investigating the killing in Macon recently of Stone-wall Daniels, 52, a city employee, and for which Tom Yaughn, 30, trusty on the Bibb county chain gang, is held

The inspectors, E. A. Williams and D. P. Jones, visited Yaughn at the county jail here, after which they went to the convict camp to confer with Superintendent John Wimbish.

Superintendent John Wimbish.

Yaughn after his arrest told police he shot Daniels after the latter swung at him with a chair during an altercation at a house here.

The convict told police he, his brother, Bob Yaughn, and Marshall Reid, trusties at the prison camp, came into town with a convict guard, who instructed them to go back to the camp without him.

Yaughn told police and newspapermen that he had been carrying a pistol for several months, without knowledge of the camp superintendent. He said he had the weapon on July 28, when Daniels was shot.

## SOVIET RUSSIA DECLARES FEAR OF WAR TREATY

Moscow, August 8.—(P)—The newspaper Izvestia, organ of the central executive committee of the soviet government, today published a rumor, the source of which is a mystery, stating that the Kellogg pact to outlaw war would apply only to signatory nations, as distinguished from non-participants. The paper ascribed this to a "rumored Canadian amendment" without revealing what gave rise to such a rumor.

Commenting on this report and on the recent interview respecting the pact given out by G. V. Tchitcherin, people's commissar for foreign affairs, the paper says that the clause justifies all the soviet fears and suspicions regarding the underground motives of the pact. It states further that the treaty is so worded that it is likely to become an instrument of antissoviet war.

Washington, August 8.—(49)—Pro-hibition was singled out today as the foremost issue in the campaign by Senator Edwards, democrat, New Jer-sey, who said that religion could not be made a "real issue" and that a squabble on the tariff was out of the navorate of modification of the dry law, predicted that his state would be "overwhelmingly for Smith." He said that two years ago he had prophesied that prohibition must be faced by the 1928 presidential nominees and that the "issue is now here in all its hideousness."

# HARDMAN SCORES TACTICS OF RIVERS

Covington, Ga., August 8.—Governor I., G. Hardman was one of the speakers here today at the annual Newton county homecoming and delivered a masterly address to an audience of more than 2,000 people. Governor Hardman was the guest of Dr. Luke Robinson and N. S. Turner. He returned to Atlanta late this evening and will be in his office during the remainder of the week.

"The most amazing situation that Georgia politics has ever known," the executive declared, "is the spectacle afforded by the chief obstructionist of the last session of the general assembly. He is going over the state claiming that what Georgia needs is harmony between legislative and executive departments, and decrying the lack of that harmony in the last session.

"If Mr. Rivers thinks that harmony between these two departments would help the state and if he places the good of the state above his own political future of the machine of which he has, for so long, been a member, then he is going to have a mighty hard time explaining his role of chief obstructionist. It is the age-old story of rule or ruin, and when Ed Rivers found that he could not rule he had no hesitancy in doing his best to ruin.

"He hides behind a mass of generalities, finding it impossible to point to a single specific instance where Governor Hardman has not lived up to every campaign promise, or where he has violated a single promise made to the people who elected him. His favorite barrage is one in which he claims that Governor Hardman is spending unlimited money in his campaign, whereas, as a matter of fact, the Hardman campaign is the most econominal one that Georgia has had for many years. Whatever money is being spent and what may be spent in the future is Governor Hardman's money. No portion of it is being contributed by any paving contractor, by any dealer in paving material, road machinery, or by anyone else.

"The Rivers statements are characteristic of a few individuals who would attempt to appeal to the prejudices of the people and array sentiment against the man

One of the main reasons why golf gives so much trouble is this—it is a game that runs backward—contrary to instinctive effort. The right hand is the stronger hand. Here you have the stronger hand swinging forward—and it is only natural that the stronger hand swinging forward should dominate the weaker hand swinging backward—and always be crowding in too

ward—and always be crowding in too quickly.
Yet the true golf swing must be started with the left hand and left arm and that this weaker hand and arm must be given a chance to do a lot of to do through reasons mentioned above. You rarely see the average golfer giving his left hand and left arm a chance to handle their part of the job. Instinctively the right hand rushes into control and this upsets the smoothness of the swing—causing slicward-and always be crowding in too smoothness of the swing-causing slicing, hooking and digging back of the ball. Court Star Looks Worn and Drawn; Has Nothing to Say About His Case.

New York, August 8 .- (AP)-A silent, worn and weary-looking Bill Tilden returned today from the eventful Davis cup tennis campaign against the French which met with disheartening failure after he had been dropped from the team and then restored to it at the eleventh bour.

With Tilden on the Paris were his comrades of the Davis cup team-Frank Hunter, John Hennessey George Lott and Junior Coen-and his fiends, Samuel H. Collom and Joseph W. Wear, both of his home town of Philadelphia and respectively president of the United States Lawn Tennis association and chairman of ganization. It was Collom who renstated Tilden on his own responsibiliey after the French had appealed to the United States ambassador.

No Official Greeting. There was no official greeting committee from the members of the U. S. L. T. A. who caused an international furore a couple of weeks ago by find-ing what they believed to be evidence that Tilden had violated the tennis

that Tilden had violated the tennis body's amateur-player writer rule and forthwith recommending to President Collom in France that Big Bill be re-moved from the team.

In fact there were only three unof-ficial greeters from that group—Louis B. Dailey, vice president of the U. S. L. T. A.: Charles S. Garland, chair-man of the Davis cup selections com-mittee, and Edward B. Moss. execu-tive secretary. There was little if tive secretary. There was little if any warmth of feeling discernible when Tilden, the first man off the boat, was met by Dailey.

Tilden's attitude was sone of studied and eloquent silence and in this his companions shared

his companions shared.
"I have absolutely nothing to say until I find out how things stand,"

Tilden declared, "except this one thing. I will have nothing whatever to do with professional tennis."

What Tilden will have to do with amateur tennis in the immediate future is more of a question. U. S. L. T. A. officials have made it plain that prior to the executive committee meet. prior to the executive committee meeting arranged for August 24 at which time the charges against him will be

A Good Addition

The coming of "Red" Oldham to the Crackers may mean much just at this time. The former Tiger has a good record behind him in the majors and thus far this season has done exceptionally well with the Mobile Bears. His record stands at exactly seven lost and seven won, a 11.9, and Helen Jacobs, of Berkeley, percentage of 500. That doesn't appear so good at first glance but when it is remembered that he made that standing with a club ranking seventh in hitting and eighth in fielding it is truly remarkable.

Atlanta, when figures were compiled last Friday, was tied for the league fead in fielding and third in hitting. Playing with figures a bit, it is not hard to guess that Oldham's record with Atlanta over the same period would have been about 11 out of 14 games rather than seven.

All this may not mean a thing but another glance at the figures will show that very few of Atlanta's present pitching staff can boast an average of .500. In short words, Oldham may not be the balance needed to the Davis cup committee of that or throw the pennant scales in Atlanta's direction, but certainly he will throw SOME weight on their side. He should be a good addition.

# Has Willie Changed?

It begins to appear that the announcement made by Pa Stribling a short time ago is beginning to bear fruit. Referring, of course, to Pa's claim of the heavyweight title for William Lawrence. Up to that time Strib had been pushing 'em over at all points of the nation but the calibre of his competition was arousing considerable question among fight fans and writers.

Some scribes even went so far as to-ask Pa when Strib would end his workous with the palookas and start fighting somebody in earnest. That usually brought the reply from Pa that most of the good boys don't want to meet Stribling. A personal check with a few "inside" men convinced us, among others, that such a statement was more than half truth.

Now the showdown has come. Strib has claimed the title and really has about as much claim to it as anyone else among the "contenders." As a result he will fight three "fair to midlin'" men within the next three weeks.

He will meet Ad Warren, the North Carolina football star, the ancient Mike McTigue and the almost equally ancient Martin Burke. The last two are clever men but neither pack enough trouble in either hand to keep Strib from boring in to a knockout. With Ad Warren a different story may be told. Ad throws a mule foot in either hand and we are anxious to see if Strib will dare his punches enough to kock him out.

If Strib does that, we will begin to believe he has developed a killer instinct he never possessed a couple of years ago. If he polishes off Ad Warren he will do so with the knowledge that he is courting a bump every time he gets within reach of the college boy's hands. Strib has never been inclined to "mix it" with a hard, clever hitter. He will have to do that to be a popular champion or a champion of any kind. Maybe he'll do it with Ad Warren. Time will tell.

Big Bill had his usual high praise for the French players who retained the cup and also for the young members of his own team. He brought word that Rene Lacoste positively before the hearing on Tilden.

In the Brought the Collom and Wear hurried home to Philadelphia but there are to be several informal conferences of U. S. L. T. A. officials here, it is understood, before the hearing on Tilden.

Amsterdam, August 8.—(P)—American springboard divers nearly swept the board clean today when Peye Desjardines won the championship with a score of 185.04, with Michael Galitzen, scoring 174.06, second. Samaika, of Egypt, succeeded in displacing Harold Smith in the last two dives or the United States would have finished one-two-three. Samaika com-piled a score of 172.46 to 168.96 for

Smith.

The girl swimmers fared rather poorly in the breast-stroke semi-finals, Agnes Geraghty and Jane Faunts being eliminated. Gertrude Hoffman is the only American girl left in the competition, and her hope in the finals is somewhat slim.

The American men swimmers came to the rescue of the weaker sex. Clarence Crabbe, Austin Clapp and Raymond Ruddy all qualifying for the finals. Here they will meet Arne Borg, of Sweden, and Charlton, of Australia. Crabbe seemed to be the best bet in the decisive test, but he is rated as an extreme outsider, for Borg seems to have the championship cinched.

The 100 meters backstroke championship, however, should go either to George Kojac or Walter Laufer, and the United States is regarded as certain winner of 15 Olympic points here, with Paul Wyatt likely to help along the cause with some more.

Sloten, Holland, August 8 .- (P)-In a series of desperate races some of which were marked by thrilling finishes particularly hard on American spectators with weak hearts, three coatloads of United States carsmen today forged into the final round of the Olympic rowing regatta. A fourth reached the semi-finals in its class and a fifth was eliminated.

The three American entries, which have only one more opponent to beat to win championships are the University of California eight, the only surviving U. Pittsburgh, Pa., August 8.—(P)—A radio utopia, when moving pictures will be sent through the air to homes in all parts of the world, was visioned today by radio's most conspic-uous leaders when "radio movies" were sent for the first time in his-tory during a demonstration at the tory during a demonstration at the East Pittsburgh plant of the Westinghouse Electric and Manufacturing

company.

Leaders in the radio world and newspapermen attended the demon-stration and saw the movies sent through the air to a screen 30 feet from the transmitting apparatus.
While still in the laboratory stage, the process was described as successful and having great possibilities. It was pointed out by engineers that al-though the movies were sent only a short distance, the engineering prin-ciple is the same and they could be

sent across the continent just as easily.

Ordinary motion picture film was used. In a small, darkened laboratory, the broadcasting and receiving sets were turned on. As the switch was thrown in, starting the broadcast, the "movie" sprung to life on a small screen on the receiving set. While not as clear as ordinary "movies," the characters were easily distinguishable and the sub-titles readily readable.

Engineers in explaining the complicated process which made radio movies possible, said light is projected through moving film, changed into electrical impulses by means of a sensitive electrical "eye" and then broadcast on an ordinary radio wavelength.

receiving set. Although there are no movie radio receiving sets yet on the market, and probably will be none for some time, Westinghouse officials announced the regular transmission of motion pic-tures from station KDKA, Pittsburgh, will begin in a few weeks. It was also announced the apparatus, when produced commercially, will be sold through the Radio Corporation of

Beauty Fashions.

A PRETTY FROCK FOR MANY OCCASIONS.

6230. Printed crepe fashioned this pleasing model as it is shown in the large view. It is attractive also in point d'esprit or in georgette, voile or chiffon. The waist is long, and joined to a full, gathered or shirred skirt on a split-curve line in front; at the back this line is straight. Graceful berthe portions fall in cape effect over back and front. This design is lovely for slender girls. In yellow, green or white voile or in printed dimity, it is very dainty and girlish. Loops and ends of ribbon grace the right shoulder.

This pattern is cut in four sizes: 8, 10, 12 and 14 years. To make the dress for a 12-year size will require 3 3-8 yards of 39-inch material. For narrow bias binding on berthe edges, 2 7-8 yards is required, and 1 1-8 yard of ribbon for the shoulder.

Pattern mailed to any address on receipts of 10c in silver or stamps.

Send 12c in silver or stamps for our up-to-date fall and winter 1928-29 book of fashions.

# 148 Gallons Seized And Two Men Jailed · In Search for Rum

County police Tuesday night and Wednesday morning were active in the search for liquor transporters and their efforts resulted in two captures, one due to a balky flivver and the other to the somnolence of the owner of a quantity of whisky.

Sanford Smith was overhauled on the Roswell road by Officers Webb, Patrick and Casey after his automobile developed motor trouble and quit on him just as the police were approaching. Sixty-three gallons of whisky were found in the car and Smith was taken back to Fulton tower where he was held until \$500 bond was put up for him.

he was held until \$500 bond was put up for him.

Policemen Benson and Dickerson entered a garage at the corner of Ivy and Harris streets early Wednesday morning and found Lloyd Rice, of a Clifford street address, asleep in an automobile. Although no contraband was visible at first glance the officers had been watching the place for some time and so decided to search the car. Accordingly the sleeper was disturbed and a search of the machine revealed 85 gallons of liquor. Rice was released from Fulton county jail under \$500 bond.

development of cancer. In discussing the question, Dr. Handley, of London, said that the lack of physical exercise caused a chronic lymphatic stagnation or obstruction and this excess of lymph overnourishes the cells, thus giving them the tendency to multiply. He pointed out that the fluid that bathes our tissues requires to be constantly changed, just as does the water in which flowers are placed. And this can be attained only by regular exercise.

So, then, when we understand and practice exercise and correct diet and avoid chronic irritation, we will probably prevent cancer, as well as many other disorders.

We have an article on exercise called the Atonic Abdominal Wall, and one on Balanced Diet which may interest you more now that I have given you this little talk. Painstaking analyses of the active ingredients of the water from twenty-two of the most famous springs have taught us the secret of their effectiveness. You can now have all these benefits in your own bath. Merely put Fayro into your hot bath. It dissolves rapidly. You will notice and enjoy the pungent fragrance of its balsam oils and clean salts.

Then, Fayro, by opening your pores and stimulating perspiration forces lazy body cells to sweat out surplus fat and bodily poisons. Add Fayro to your bath at night and immediately you will lose from 2 to 4 pounds in an easy, refreshing and absolutely harmless manner.

"You cynical observing young person!" laughed Stephen. "But you have not answered me. What of this hundred a year of yours?"

She went suddenly crimson. "I'm saving up for something especial," she said stiffly. Stephen might pretend to forget that two thousand pounds; she never would. All she was light enough as she said: earned was his, but, of course, he took it for granted that she was dishonest and would spend it on finery. That was Stephen all over: always thinking the worst of one. She won-dered why he had condescended to come to Moat Grange at all. He had hardly spoken to her; obviously bored by Mrs. Vesington. "And I am his ward; it's his duty to remember that. People ought not to neglect their duties. # Keith's Georgia.

Lasses White, the ebony-hued comic holding forth at Keith's Georgia this week, is the last of a long line of famous minstrel personalities who have forsaken the minstrel stage for the vaudeville footlights or have passed into the limbo of forgotten things. In vaudeville Lasses boils his funny conversation down to vaudeville size, and if anything becomes funnier because he retains only his choicest comedy.

Dainty little Lillian Morton, dynamic comedienne, in her new act in which she sings all her latest Broadway hits, is the headline attraction on the vaudeville bill at Loew's Grand theater this week. Another popular act is the combination orchestra and dance revue offered by Dolen and Bonger. Other acts are Raymond Wilbert, golf wizard and comedian; Jack and Rita La Pearl in a comedy sketch with songs, and Sergeant Franklin, expert marksman, in a sharpshooting act. The Loew feature picture is "The Mysterious Lady" with Greta Garbo and Conrad Nagel in leading roles. Dainty little Lillian Morton,

small production."

Charles W. Nash, former president of General Motors, and now head of a large automobile company of his own, says, on the other hand, that there is no danger to the small well managed unit from large consolidations.

"A small well organized and well directed automobile corporation has nothing to fear from the large concerns," said Mr. Nash to me. "All people do not want the same things. Some want one kind of a car. Some want another. There is such a thing as a corporation being less efficient because it is too large. A successful industrial unit is one that does not aim for bigness, but for efficiency."

Here surely are two different points that he gives the impression of being absent-minded.

H. G. Wells, the British writer, said recently that the big bankers of the coming years were bound to be leading sociologists as well as leaders in international influences.

Along this same line, the president of the New York Stock exchange, E. E. H. Simmons, says: "Our foreign lending has resulted from efficient production and consistent economy—the poly true source of capital in the only true source of capital in world."

Dwight W. Morrow, American ambassador to Mexico, has the reputa-tion of being so preoccupied at times that he gives the impression of being

Today's weekly reviews of recognized spokesmen for the iron and steel trade were again bullish. Wall street, however, has readjusted its expectations of what the July unfilled order statement of the United States Steel corporation, due at noon Friday, will show. A decrease of 100,000 tons is now predicted whereas an increase has been expected. A month ago expectations were for a decrease whereas an increase was reported.

Cotton Market Surprised.

Expecting the first government cotton crop report to indicate a yield of 14,800,000 bales, the cotton market was surprised by a government estimate of 14,200,000 bales, cotton advancing from \$5 to \$8 a bale. With the season from two to three weeks late, weather conditions from now on will be an important factor in cotton.

Chicago, August 8 .- (A)-Facing an estimate that surplus wheat in export countries this season will total 315 .-000,000 bushels more than last year wheat values collapsed today. The tumble carried the wheat market 33c a bushel under prices of a year ago and to the lowest level since 1924. Closing quotations on wheat were unsettled, 1 7-8c to 2 5-8c net lower for the day, with corn varying from 7-8c decline to 1-4c advance, oats, 1-4c to 1c off, and provisions unchanged to 25c down.

Likelihood of a bearish government

crop report tomorrow as to domestic wheat added today to the effect of extremely optimistic wheat crop advices from Canada. Authoritative advices were at hand that the Canadian crop were at hand that the Canadian crop is now in a condition well above the average of the last five years. Moreover, the area planted to wheat this year in the Canadian prairie provinces is figured as 23,567,900 acres, showing an increase of 9.95 per cent over 1927 and establishing a new record. On top of this came a statement from a British authority that export countries will probably have a surplus stock of 1,104,000,000 bushels, whereas world import requirements are placed at only 27,000,000 bushels more than last year.

Demoralized wheat conditions at Liverpool tended further to bring about general selling here, especially as word was received that stocks of wheat at Liverpool are larger than

New York, August 8.—(4?)—Speculative interest in today's markets was divided between a sensational rise of \$6.50 a bale in cotton, nearly half of which was lost, and a broad selling movement on the New York Stock exchange, which carried a number of popular industrial issues down 2 to 8 points.

High money rates again tended to dampen bullish enthusiasm for stocks. Call loans renewed at 6 1-2 per cent, as against 6 yesterday, and then advanced to 7 as banks called \$20,000,000 in loans. Time money held firm at 6 per cent, with banks less inclined to make long loans at that figling the points lower at 183 144, as contrasted with a high of 195 1-2 last week. Chrysler, Hupp, Packard, Nash and several of the accessory shares sold down 2 points or more.

Amusement shares fluctuated in viotent fashion, the Pathe issues nearly doubling their price overnight before profit-taking cut down the gains. Keith Albee was run up to a new high at 27 and then lost all but a fraction of its gain. The sudden buying movement in these issues was generally construed as a drive against an overcrowded "short" interest built up on the theory of poor fall prospects for the theater business. Sharp breaks took place in some of the high-priced specialities. Du Pont dropped 8 points, Motor Products 61-4, Case Threshing 6 and Allied Chemical, American Car and Foundry, American Express, Atlantic Refining, General Cable, Johns Manville, Midland Steel Products preferred, National Tea, Frank G. Shattuck, Timken Roller Bearing and the climber of the successory shares sold down 2 points or more.

instantion July 1 an area of 44,953,000 acres for harvest this year.

The final outturn of the crop, the department said, will depend on whether the various influences affecting the crop during the remainder of the season are more or less favorable than usual. Last year's crop was 12,955,000 bales, that of 1926 was 17,997,000 bales, that of 1926 was 16,104,000 bales.

The danger of damage from boll weevil in the opinion of the crop reporting board is "fully as great as a year ago." There is no indication, however, "that weevil damage would approach in seriousness the damage suffered in 1921. The probable weevil damage allowed for by the board approximates the average of the years approximates the average of the years of fairly heavy or above average dam-

More Than Week Late.

Data on the seasonable advancement of cotton, the board noted. shows the crop to be over a week later than last year and about two

weeks later in west Texas.

"Leaf worm and other insects while quite generally reported do not appear to be doing more than usual damage except in restricted areas. Generally speaking, cotton is fruiting freely with less than the usual amount of shed-

ding."

# GEORGIA BELIEVED

62 PER CENT NORMAL.

The Georgia crop reporting service of the United States department of ag-

of the United States department of agriculture, yesterday placed the condition of the Georgia cotton crop as of August 1 at 62 per cent of normal, compared with 65 per cent in 1927 and a 10-year average of 63 per cent.

Indicated production for the state was placed at 1,079,000 bales. The report said 3,956,000 acres were in cultivation on July 1.

"Cotton growers were severely handicapped this year in preparation, planting and cultivation of the crop, due to excessively wet weather from early spring until mid-July, accompanied by unseasonably cool temperatures throughout the spring. Operations were delayed over the entire state and in much of the coastal plains section a great deal of planting over was necessary," the report said. "Even then, poor stands were obtained over much of the southeastern and southmuch of the southeastern and so much of the southeastern and south-central areas and other scattered local-ities. Cool and wet weather resulted in retarding growth, considerable leaching of fertilizer from lighter soils, and grassy fields in all parts of the

state.

The report said that while "weevils were reported in scattered localities throughout the state, no particular damage had occurred over any considerable area. The greatest unfavorable factor at present is lateness, coupled with the sectorical description.

# Dry Goods.

New York, August 8.—Cotton goods markets stiffened today after the government cotton report and print cloth prices advanced one-fourth of a cent to the old basis of 71c for 381-inch .04x00s. Silk and cotton mixed goods were firmer and more business was reported in fine count broadcloths. Raw silk advanced 10 yen at Yokohams. Cutiers are buying Canton and satin crepes ferimmediate use, and some of the new fail prists. Burlaps shipped from Calcutta in July reached 80,000,000 yards to North America, and 40,000,000 yards to South America, and 40,000,000 yards to South America, mod goods showed no change.

NEW ORLEANS COTTON BANGE.

NEW ORLEANS SPOT COTTON. New Orleans, August 8.—Spot cotton clos-steady. 71 points up.. Sales 729; low idling 19.16; middling 20.16; good mid-ag 20.56; receipts 954; stock 145,575.

New York, August 8 .- (A)-A jump of approximately \$5 to \$8 a bale in cotton prices followed publication of the government crop report today. December contracts which had sold off to 19.00, or into new low ground for the movement before the report, sold up to 20.33 compared with 19.23 at the close the previous day. This advance was checked by southern selling and realizing, and later fluctuations were irregular, but after reacting to 19.65, December steadied up again closing at 20.03. The general market closed steady at net advances of 78 to 83 points.

The market was nervous and irregular preceding the official report. The opening was steady at an advance of 7 to 14 points on relatively steady cables. Apprehensions that a gulf disturbance might possibly work up the South Atlantic coast extending into the eastern belt, appeared to be responsible for some covering or a little

18.90.

The official figures placing the condition at 67.9 and the indicated crop at 14,291,000 bales was about half a million bales below the average of recent private reports, and evidently surprised the market. There was a rush of buying on the resumption of trading after the 20-minute interval, and the market almost immediately sold up to 20.75 for October and 20.05 for January on covering and some for January on covering and some fresh buying which appeared to come

AT NEW ORLEANS.

New Orleans, August \$8\_—(P)—A difference of about 1,000,000 bales are to a significant to the second year, and the actual production of 1925 in the estimated yield given out by the government today was responsible for a gain of practically \$7 a bale in the cotton market. The report year is readed to the profit taking developed after the specific specifi

off to 19.42 and it closed at 19.55, 73 points net higher.

The market opened steady in response to higher Liverpool cables than due and first trades showed gains of 10 to 15 points. Prices weakened, however, right after the start under a list minute flurry of liquidation in advance of the official report. October traded down to 18.59, December 18.58 and January 18.57, or 21 to 24 points under the previous close. These were the prices ruling when trading was suspended for the reception of the bureau.

was suspended for the reception of the bureau.

Immediately after its issuance, however, covering carried October up to 19.95. December 19.98 and January 19.90, 133 to 140 points over the lows.

The big bulge attracted a large volume of profit-taking and before this was absorbed, prices had lost 42 to 56 points of the gain. In the final trading, however, additional covering developed and prices rallied 12 to 13 points, December closing at 19.55 and January 19.51.

New York, August 8.—Once again the cotton trade was taken completely by surprise when the government issued its first estimate of this year's crop. Few, if any, had expected such an extremely low report in proportion to the general ideas which had prevaited. In reading the detailed statement it would appear that the government had allowed for weevil damage, the extent of which will be greater or less than their allowance denominal, noon the wasther this 520

As is customary, trading was suspended for 20 minutes this morning from 9.55 to 10.15 o'clock to receive the government report and afford an opportunity for its digestion.

Wall Street Briefs. New York, August 8.—Unfilled orders of the United States Steel corporation at the close of July, to be made public on Friday, are expected to show a drop of about 100,-000 tons, resulting from unusually heavy shipments for the month and hot weather which beld up orders. Bookings are underFurnished by Courts & Co., Hurt Building.

Sales of National Tes company for seven months this year moved up to \$48.731,304 from \$31,838,334 in the same period of 1927.

Iron Trade Review says more steel was produced last month than in any July on record and if the gnit of the first week in August is maintained a new August record is in the making. Since stocks of producers and consumers alike are most meager, consumption is correspondingly high. Undoubtedly this is the best summer in the history of the metal-working industry.

Profit of the Foundation company for the half year dropped to \$38,141 after charges, but before tarses, from \$108,214 in the first half of 1927.

nton Harbor, Mich., August 8 .-(P)-The House of David, divided gainst itself, has drawn a new rebuke om the state of Michigan.

Unless there is a cessation of the lissension threatening the colony assets, the state will ask reinstatement of the receivership which was suspended by the colony's appeal to the suoreme court. The ultimatum to the Davidites was issued by Attorney General Brucker, who described the situa-

cral Brucker, who described the situation in the colony as "bad."

Since the death of "King" Benjamin Purnell, who organized the cult, two factions have sought control, the state charges. One faction is headed by "Queen" Mary Purnell, widow of the "king." The other is led by H. T. Dewhirst, one-time California jurist and the man who headed counsel for Purnell when he faced charges brought by former girl members of the colony.

The attorney general expressed the The attorney general expressed the belief that the division within the House of David was about equal. Each

Brucker does not believe that there has been any appreciable decrease in the number of members since the state won its receivership suit. He said that won its receivership suit. He said that the House of David baseball team, touring under the management of Francis Thorpe, a follower of Queen Mary, has turned in no receipts this year, although in other years its re-ceipts have been about \$14,000. There also is a jazz band of bearded David-ites which regularly fills theatrical

The earning power of the colony, however, has been as great or greater than during the heydey of King Ben, the attorney general said. All earnings of individual members are pooled in a common fund.

# Fear Religious Issue in British General Election

BAND OF CHEYENNE WAS FINALLY LOCATED IN WILLOW CREEK CANYON, WHERE THE ICE-BOUND STREAM FLOWED BETWEEN WALLS OF ROCK A THOUSAND FEET HIGH. ON THE NIGHT OF NOVEMBER 24TH, MACKENZIE'S MEN STEALTHILY APPROACHED THE VILLAGE OF THE HOSTILES.

ISED THE VILLAGE AND CAPTURED THE PONY HERD. THE CHEYENNE, LED BY CHIEF DULL KNIFE, RESISTED FIERCELY, AND REFUSING TO SURRENDER, FLED ALMOST NAKED IN THE BITTER WEATHER. THE SOLDIERS BURNED THE TEPEES AND DESTROYED THE SUPPLY OF FOOD THE INDIANS HAD GATHERED FOR THE WINTER.

UST BEFORE DAYBREAK THE TROOPS SUR-SIOUX FOR FOOD AND SHELTER, AND AT LAST. STARVING AND FREEZING, THEY WERE OBLIGED TO GIVE THEMSELVES UP TO THE UNITED STATES TROOPS. IN 1877 THE TRIBE WAS REMOVED TO INDIAN TERRITORY.

# BEAUTIFUL OAKDALE **ESTATES**

This, THURSDAY, AFTERNOON, AUGUST 9TH, BE-GINNING AT 1:00 O'CLOCK, we are going to close out Oakdale Estates for the receivers. Oakdale Estates is located on and adjacent to Wieuca Road, one-half mile west of Peachtree Road.

This auction affords an opportunity to profit on a small investment, as the property presented has in the past few years enhanced materially with its greatest profit-making period to come in the next three or four years.

Rapidly has Atlanta gathered up the sections round about. And significantly does the development of this entire section prove the possibilities for those who will take advantage of this Receivers' Sale.

Remember this is an auction sale—not a proposition of meeting a price set down by the other fellow. Come-be one of the fortunate ones who get a section of Atlanta's greatest real estate opportunities.

Every part of Oakdale Estates is directly in the path of Atlanta's progress. Every lot is a bargain in itself and there are various size plots to meet any requirement or desired investment.

-"Rainbow"-crashed on the landing field at Orcy airdrome late this afternoon killing the pilot, Maurice Drou-hin, noted French flier, and mechanic, Lannet, and injuring two others, Gionolle and Manuel.

The big plane, designed by Rene Couzinet, and built entirely of wood, so constructed that all of its essential machinery would be accessible during flight, was a complete wreck, parts of the wings, fuselage and wires being strewn for 1,600 yards along the field.

The "Rainbow" was being put through its final test preparatory to a start across the Atlantic next week. Drouhin died tonight in a hospital with one leg broken and almost wrenched from its hip socket. Lannet and Manuel were both to have been in the crew of the Atlantic flight. Gionolle was one of two youthful French engineers who designed the plane, the other, Couzinet, not being aboard when the crash came. Only four days ago a new 600-horsepower motor had been substitut-

ed for 180-horsepower central engine, the new motor being flanked with two other motors of 180-horsepower each. With the added power the plane carrying a load exceeding two tons had al treaty powers would call another made speed of greater than 140 miles conference to consider the points

It was roaring close to the ground today at about 125 miles an hour when a few spectators noticed a huge wing wobbling, the engines were cut off then, but the deformation of the wing caused the giant plane to shoot almost perpendicularly into the air to a height of about 450 feet. There slid to one side, apparently refusing to respond to the controls.

When the first spectators arrived Lannet was already dead, Drouhin was bent over in a pool of his own blood, and Gionolle was unconscious though apparently not seriously injured. Manuel's wounds seemed not to be grave.

## CATES' CONDITION REPORTED SERIOUS AT HOSPITAL HERE

Alvin B. Cates, president of the Adams-Cates Realty company, injured Monday night in an auto crash near Buford, was reported Wednesday night to be still in a serious condition at Wesley Memorial hospital.

A blood transfusion was performed Monday night and shortly later surgeons were forced to amputate Mr. Cates' left arm just above the elbow. The injured man was still deliriou Wednesday night, but doctors held hope for his recovery, although pro-nouncing his condition grave. The accident occurred when Mr. Cates was riding home from Brevard, N. C., with his little 4-year-old daughter, Sara, who was ill. Mrs. Cates, in the car with her husband, was badly bruised and lacerated but was reported much improved Wednesday. The little girl was uninjured.
